Retail Price 10.49

Condition New

Description

NUK Orthodontic Pacifiers, 6-18 Months, 5-Pack Fashion 5 Count (Pack of 1) 10.49

Having a difficult time finding the right pacifier for your baby? The new NUK pacifiers are accepted by 95% of babies and feature the improved orthodontic nipple shape. NUK's asymmetrical nipple naturally fits baby's palate and is now improved to allow for more room for a natural sucking motion, reduce pressure on teeth and jaw, and helps prevent teeth misalignment. Invented over 60 years ago by pediatric dentists and doctors, the NUK pacifier is modeled after the natural shape of mom's nipple while breastfeeding. This makes for an easy transition from breast to pacifier and back. The NUK heart-shaped shield fits perfectly under baby's nose for easier breathing and prevents irritation. (Based on Market Research, 2017, tested with 307 pacifier users).
