Description

(See pictures)Aquastrong 1.6 HP Portable Shallow Well Pump Garden, 1320 GPH, 115V, Stainless Steel, Sprinkler, Water Transfer Draining Irrigation Pump, for Lawn or Garden 219

Model: PGA Title: (See pictures)Aquastrong 1.6 HP Portable Shallow Well Pump Garden, 1320 GPH, 115V, Stainless Steel, Sprinkler, Water Transfer Draining Irrigation Pump, for Lawn or Garden Condition: Like New \$219 1.6 HP motor can deliver water up to 164ft. The powerful suction can reach Max.Flow 1320 GPH at 5ft of head and well depth up to 26ft. As providing high flow and pressure for irrigation and clean water transfer, this lawn pump is economical and durable with an energy efficient motor. Since this irrigation pump has an easy-to-carry iron handle, you can take it in a variety of environments such as lawns, gardens, farms, etc. Stainless steel casing and aluminum motor housing ensure durability and corrosion resistance. Waterproof On/Off switch. Low noise and easy installation. When the water inside the pump runs out, it will shut off automatically to protect the motor. Built-in automatic thermal overload protection will prevent the motor from overheating and burning. This garden pump is not a self-priming pump, which means that it requires filling with material prior to use. It is also compatible with a pressure regulator and can work as a pressure booster pump. 1" NPT discharge and suction with 3/4" garden hose adapter, easy to install. The

garden pump features carbon ceramic mechanical seal which can prevent water leakage effectively and provide long service life. The electric water pump is ideal for sprinkler systems, irrigation, water transfer for daily use, drawing water from shallow wells, ponds, lakes, rain barrels, water tanks, etc. Aquastrong customer service provides the professional advice on installation and maintenance.
