Description

Sun Will Battery Heated Beanie Hat,Electric Rechargeable Warm Winter Heated Fleece Cap 60

Title: Sun Will Battery Heated Beanie Hat,Electric Rechargeable Warm Winter Heated Fleece Cap Condition: New \$60 *Heated Hats are made of soft, breathable, quick-drying material with a comfortable elastic fit. Fabric is polyester, and elastane, making our heating hats softer and thinner while still retaining maximum warmth. *Advanced infrared fiber heating elements are designed to stimulate blood circulation and heat up the head in only 30 seconds. Recessed heating elements focus heat on both ears, covering them completely. Sunwill electric hats make great gifts for Christmas, birthdays, and Valentine s Day. They are perfect for all outdoor activities in autumn and winter. *Rechargeable electric lithium battery: 7.4V 2200mAh Battery duration: 8 hours on low; 3-4 hours on high. 3 temperature settings and easy-to-use controller: LED button glows red for high, white for medium, and blue for low. *Sun Will hats are perfect for a variety of recreation activities, such as hiking, hunting, fishing, skiing, biking, and riding motorcycles. They are ideal for working outdoors or in cold office buildings and for walking the dog. They are especially good for attending cookouts, outdoor sporting events, and school competitions.
