**Description**

EMSCO Group 2101-2 Gutter, 2 pk Downspout Rain Splash Block-Granite 33

Brand: Emsco Group Model: 2101-2 Title: EMSCO Group 2101-2 Gutter, 2 pk Downspout Rain Splash Block-Granite Condition: Like New \$33 PREVENTS WASHOUTS & POTENTIAL FOUNDATION DAMAGE This splash block diverts water away from your downspout to prevent foundation or landscape damage from water runoff. It also facilitates the speedy removal of rainwater overflow eliminating the risk of having standing water become a breeding ground for insects, mosquitoes, and other pests. EASY TO USE & LIGHTWEIGHT Unlike splash blocks that are made from concrete or stone, this splash block is made from premium resin and has a lightweight structure that is easy to install and budget friendly. DECORATIVE STONE DESIGN Although it's made from polyethylene plastic, this splash block has a realistic stone look that gives it aesthetic appeal. DURABLE RESIN CONSTRUCTION Made from a composite blend of premium polymers, this splash block has a durable resin construction that will stand the test of time. AMERICAN MADE - Crafted by EMSCO Group, the American manufacturer that invented the plastic snow shovel and has been selling great products since 1865
