Description

KONLLEN AS Carbon Fiber Inlay Abalone Shell Pool Cue Stick 10.5/11.5/12.5mm
Leather Wrap/Wrapless Black Technology Low Deflection Billiard 499

Brand: KONLLEN Title: KONLLEN AS Carbon Fiber Inlay Abalone Shell Pool Cue Stick 10.5/11.5/12.5mm Leather Wrap/Wrapless Black Technology Low Deflection Billiard Condition: Like New \$499 Professional Pool Sticks: This carbon fiber pool cue features a 3/8*8 joint, measures 58 inches long, and weighs 19-20 ounces. It is designed as a two-piece pool cue with a 12.5mm tip, offering the perfect balance of power and precision. Whether you're a beginner or a seasoned player, this carbon fiber cue is suitable for all skill levels High-strength Carbon Fiber Material: This pool cue uses a carbon fiber shaft that is not easy to bend or deform, which can maintain the consistency of the shot and achieve precise control, smoothness, and stability. The ebony butt is inlaid with four carbon sheets to increase hardness, reduce ball deviation, and provide a more stable feel Professional 12.5mm Tip: Carbon fiber clubs use multi-layer pigskin tips imported from Japan, rich in elastic fiber, strong grip. Transparent force transmission, stable hitting feeling. With a hard center paired with softer edges, The tip is durable and infinitely playable Exquisite craftsmanship: This pool cue butt is made of ebony, and its unique black texture is as unpredictable as famous mountains and rivers. After polishing, it is as bright as a bronze mirror and has

a delicate touch. The cue is hand-inlaid with two New Zealand deep-sea abalone rings. The gorgeous patterns seem to show the myriad worlds under the sea, highlighting KONLLEN's classic craftsmanship and unique charm Cowhide Grip: The grip made of cowhide is soft and tough. The breathability is superior to other leathers, too. The surface of the cowhide is printed with a unique lizard texture, which has good sweat absorption and anti-slip properties. It is more practical than the glossy grip
