Description

Anti Choking Device/Choking Rescue Device for Kids and Adults 40

Title: Anti Choking Device/Choking Rescue Device for Kids and Adults Condition: Like New \$40 Anti Choking Device/ Choking Rescue Device is a non-invasive rescue suction device that delivers effective suction-based airway clearance in an emergency of airway obstruction. The Anti Choking Device/ Choking Rescue Device has a short suction time. The duration of aspiration is extremely short, making the device safe and effective. Every second counts in an emergency and is a life-saving device. This Device includes three masks - two adult masks (one for practical use, one for practice), one kid mask, and a practice manual - covering both adults and children. The practice mask ensures that users are familiar with its operation before an emergency occurs. The device is portable and easy to use Its lightweight and compact design makes it easy to carry in a backpack, glove compartment, or first aid kit for protection at home, at school, while traveling, or during outdoor activities. Suction-based Anti Choking Device/ Choking Rescue Device are already in use in nursing homes across the country, and a campaign is under way to make them more widely available.
