Installation--This is the amazing plug-and-play samsung-heating element duct! It's so
easy to use. Simply detach the old one, screw in the new one where needed, and
attach the two lead wires, and you're done! No need to worry about installing the new
element because the kit is completely pre-assembled for you. It'll fix the following
symptoms: dryer too hot, doesn't shut off, takes too long to dry, tripping breaker
Purchase with Confidence: If you use our dryer heating element in the process and
find that it has melted and burnt out, or if it has burned out and other problems have
occurred, we've got your back! We're here for you, whenever you need us! We're eager
to help you solve any problems you may be having
