Description

Portable Waist Fan, 4 Speeds 13000RPM Strong Airflow, belt fan with up to 22H of Working Time, Hands-Free Neck Fan, Rechargeable Wearable Personal Fan for Outdoor, Hiking, Jobsite, Farms 35

Title: Portable Waist Fan, 4 Speeds 13000RPM Strong Airflow, belt fan with up to 22H of Working Time, Hands-Free Neck Fan, Rechargeable Wearable Personal Fan for Outdoor, Hiking, Jobsite, Farms Condition: New \$35 Fully Upgraded Portable Waist Fan This cutting-edge waist fan features the latest 2025 brushless motor technology, achieving an impressive 13,000 RPM twice the speed of traditional belt fans. Designed with 9 spiral blades and a streamlined, rocket-shaped structure, it minimizes air resistance, delivering a more focused and powerful airflow at speeds of up to 20 ft/s. With a simple press of the switch, you can enjoy an instant, refreshing breeze that efficiently cools you down, making hot summer days more comfortable. Outdoor Preferred Portable Fan A multifunctional personal fan with 5-in-1 capabilities: waist fan, neck fan, handheld fan, desktop fan, and emergency power supply. It meets all your indoor and outdoor needs. Perfect for job sites, farms, delivery, gardening, hiking, fishing, and other activities. It effectively prevents heatstroke, keeps your hands free, and helps you stay cool while working, making it easy to beat the heat. 4 Speed Powerful Airflow The belt fan has 4 adjustable wind speeds, which can be changed

freely according to the heat . The speed of 6100 rpm(1st gear), 9370 rpm(2st gear), 11,450 rpm(3st gear), 13,000 rpm(4st gear) and the first and second gear speed are equivalent to the highest level of other wasit fans. The powerful and cool airblow keeps you cool during hot days - anytime, anywhere. Notes Noise levels vary by fan speed(Low: 37 dBA High: 52 dBA) Long-Lasting Battery Equipped with a high-capacity lithium-ion battery and an LED display, this fan delivers up to 22 hours of strong airflow, depending on the wind speed. The speed and power level are clear at a glance, ensuring you always know when it's time to recharge. You can use it confidently on job sites or while traveling, without worrying about sudden battery death. Portable & Lightweight The Wearable fan measures 3.27 2.48 3.74 inches and weighs only 0.53 lb, making it easy to wear without any burden. The manganese steel double-clip design provides a stronger, more durable clamping force than belt fans with plastic clips.
