Brand: VEVOR Model: Insulated Beverage Dispenser5 Gal FX Title: VEVOR Insulated Beverage Dispenser, 5 Gallon, Food-grade LDPE Hot and Cold Beverage Server, Thermal Drink Dispenser Cooler with 0.9 in PU Layer Two-Stage Faucet Handle, for Restaurant Drink Shop Condition: Like New \$239 5 Gal Large Capacity: Introducing our 5-gallon (18.9 L) high-capacity insulated beverage dispenser, designed to keep your hot or cold beverages, such as juice, coffee, milk, and tea, at the perfect temperature. We take pride in using food-grade materials for all components that come in contact with your beverages. Experience the ultimate in beverage service quality! Non-Electric Insulation: Crafted with an LDPE surface and a 0.9 in (23 mm) PU foam layer, our hot and cold beverage dispenser is your go-to for exceptional insulation. It keeps your drinks at the ideal temperature for over 10 hours without requiring electricity or any external power source. The two integrated nylon latches securely tighten the lid, locking in the desired internal temperature. Two-Stage Spigot: Our drip-proof two-stage spigot allows for precise control of the beverage flow, and it even features an effortless press-to-stay-open function. Composed of food-grade PP material, our

insulated drink dispenser is built for longevity, and its internal springs and washers avoid leaks. Say goodbye to concerns about leaks or deformation. Hassle-Free Mobility: Our thermal beverage dispenser is made from lightweight materials and weighs just 16 lbs (7.26 kg). The two ergonomically designed integrated handles align perfectly with your fingers, making it a breeze for you to lift and carry anywhere you want. Versatile Usability: Our hot and cold beverage server is your perfect companion, suitable for cafes, bars, entertainment venues, restaurants, and more. Whether it is coffee, juice, tea, or more, it will elevate your beverage service. Experience the perfect blend of capacity, insulation, and convenience. Elevate your beverage game today!
