Model: Drip Tray Heat Baffle Title: Drip Tray Heat Baffle Replacement for Traeger Ironwood 885 Series Pellet Grills, 304 Stainless Steel Heavy Duty Steel Drip Pan Compatible with traeger BCA1333, traeger pellet Grill Assosories Condition: Like New \$73 Basic Dimensions:Drip tray heat baffle with dimensions of 28.75" L x 15.75" W. (Note: Please compare the size of your old drip tray before placing an order.) Broad Compatibility: BCA1333 Drip Pan Tray Kit is compatible with traeger Ironwood 885 Series Pellet Grills. Replacement for traeger BCA1333 grill assosories. (Note: Not for Century 885 BCA1283 drip pan tray) Not easy to deform: BCA1333 Stainless Steel Grill Drip Pan Heat Baffle crafted from heavy-duty steel. Heat baffle diffuser is built to last. Drip Pan does not deform after use at high temperatures, boasting excellent weight-bearing capacity and heat resistance for long-term stable operation Time saving: Our drip pan tray replacement features a unique heat sink design. Drip pan heat baffle can diffuse heat and evenly distribute it onto food. Avoid food being burnt due to differences in local calories. At the same time, our drip tray BCA1333surface has undergone special process treatment. Ensure that oil stains do not firmly adhere to

the product. You can easily wipe off the stains. Using heavy duty steel heat baffle diffuser can save 30% time Easy Installation: Designed for hassle-free replacement, this drip pan tray kit has a simple and durable structure. The installation process is straightforward: just remove the old drip pan tray from your pellet grill and replace it with this grill grease drip tray. This makes the entire replacement process effortless, saving you time and effort
