Spa Vacuum Compatible With 6250 Paradise Power - Self-Contained, No Pumping, Batteries - Picks up Rocks, Pennies, Beach Sand in Hot Tub, Above Ground Pool 45

Model: 1 Title: Spa Vacuum Compatible With 6250 Paradise Power - Self-Contained, No Pumping, Batteries - Picks up Rocks, Pennies, Beach Sand in Hot Tub, Above Ground Pool Condition: Used \$45 Powered by Physics: The hot tub vacuum is no hose to hook up, or batteries to forget to charge, or other hook ups to drag around for just a little sand. Just a few pulls on the plunger, picks up small pebbles and debris from the bottom of the spa. Easy to Operate: Plug the top cover hole with your thumb and insert the spa vac into the spa. The water pressure pushing the debris into the vacuum and then you pull it out and the debris is trapped, to be removed from the vacuum later. Spot Clean: Its narrow mouth reaches into corners a pool broom or vac cannot fit to spot clean/vacuum. Because particles tend to condense in few spots, handheld hot tub vacuum is easy to be precise and suction the related areas. Clean the Spa Vacuum Filter: Easy to clean out the screen when the hot tub had been cleaned. Just popped the screen and filter out and rinsed them with the garden hose then gently reinserted. Great Cleaning Tool: The hot tub vacuum cleaner works for picking up sand or small leaf bits. Ideal for people who want to keep their jacuzzi/hot tub/spa clean and away

from debris. Important Notice Shake well before draining verify the bottom lid is securely closed to prevent debris spillage.
