Cold Therapy Machine Cryotherapy Freeze Kit System for Post-Surgery Care, ACL, MCL, Swelling, Sprains, and Other Injuries - Wearable, Adjustable Knee Pad Cooler Pump with Digital Timer 189

Title: Cold Therapy Machine Cryotherapy Freeze Kit System for Post-Surgery Care, ACL, MCL, Swelling, Sprains, and Other Injuries - Wearable, Adjustable Knee Pad Cooler Pump with Digital Timer Condition: New \$189 CHOOSE NATURAL PAIN RELIEF INSTEAD OF HARMFUL CHEMICALS Are you struggling to control your pain after knee surgery? Do you frequently battle aches and swelling in your knee? With this powerful therapy system, you can avoid dependence on pain-masking drugs. The PhysioNatural Cold Therapy System is specifically designed for post-surgery, drug-free pain relief. Click ADD TO CART, and get back to the life you want to live, without the pain! CONTROL THE PAIN, RESTORE MOVEMENT, AND PROMOTE REAL HEALING Provides immediate relief from post-operative pain and acute injuries, such as sprains, strains, and fractures. Can also be used to relieve chronic joint pain from arthritis or overuse, and to support fast recovery from exercise or physical therapy. Cold therapy slows the flow of blood to an injury site, which alleviates swelling, discomfort, soreness, and inflammation in countless situations, allowing natural healing to begin. PROFESSIONAL THERAPY IN THE COMFORT OF YOUR HOME The Cold Therapy System

by PhysioNatural includes a 9-quart cooling reservoir, whisper-quiet pump technology, a 7.2 insulated tube, and a cold therapy pad that conforms to your knee. The cooling reservoir is equipped with a digital panel, which allows you to monitor your therapeutic temperature and set an automatic shutoff, if desired, for 20, 40, or 60 minutes. Simply add ice and water to the cooler and enjoy effective relief. **COMPACT, PORTABLE, AND EASY TO USE** The Cold Therapy System is compact and easily portable with an integrated carry handle. Recommended level marks on the clear base make it easy to fill the reservoir with the ideal ratio of water to ice. The large, flexible knee therapy pad is uniquely contoured and dimpled to ensure even distribution of the ice water, and three built-in elastic straps hold it securely in place, right where you need it.
