Description

Water Stream by Little Luxury, Crystal Clear Countertop Gravity Filter System 80

UPC: B091CXHVLM Model: CCDD Title: Water Stream by Little Luxury, Crystal Clear Countertop Gravity Filter System Condition: Used \$80 CERAMIC AND 5-STAGE FILTRATION PROCESS: Effectively removes impurities, rust and sediment, ensuring safe drinking water. IMPROVED TASTE AND ODOR REMOVAL: Granular Activated Carbon (GAC) and mineral filtration help eliminate unpleasant tastes and odors caused, while retaining essential minerals for healthier, better-tasting water. LARGE 4 GALLON (14 LITRE) CAPACITY: Perfect for any space, including bedrooms, kitchens, living rooms, home offices, canteens, gyms, doctor's offices, dorms, and more. Suitable for family use, small offices, and individual hydration needs. NO POWER REQUIRED: Operates without electricity, utilizing a gravity filtration system. Ideal for locations without reliable power, and during outages, ensuring continuous access to filtered water. SAVES MONEY AND REDUCES WASTE: Avoid the expense of bottled water while reducing plastic waste. This environmentally friendly solution offers clean water without relying on deliveries or plastic bottles. EASY ASSEMBLY AND OPERATION: Quick to set up and simple to use. The dispenser comes with a comprehensive user manual for effortless installation and easy operation. VERSATILE USE: Provides clean water for drinking, cooking, or even pets, making it an all-around household essential. PERFECT FOR EMERGENCIES: Works without electricity, providing a consistent supply

of clean water during power outages or emergencies. SILENT AND ECONOMICAL: Enjoy peace and quiet with a noiseless operation while reducing your water costs. DURABLE AND RELIABLE: Designed for long-term use, with easy maintenance for continued performance. Ceramic filters can be cleaned with wet sandpaper, and the filter cartridges are replaceable once the mineral balls dissolve. ECO-CONSCIOUS: With no need for bottled water, there s a reduction in plastic waste and the environmental impact caused by transporting bottled water. EASY FILTER MAINTENANCE: Replacement ceramic and 5-stage filters are available to maintain high water quality and filter performance over time.
