Honeywell HWM-705B HWM705B Filter Free Warm Moisture Humidifier, Black 39.99

The Honeywell HWM705B Filter Free Warm Moisture Humidifier provides soothing, warm mist and a calming environment to help you sleep. During cold and flu season, when allergies kick in, or the air is simply just dry, you can rely on this humidifier for your whole family. Honeywell humidifiers for bedrooms and beyond add necessary moisture to the air, and help ensure proper humidity levels in your home. Indoor humidity levels between 40-60 percentage can help relieve cough and congestion, keep throat and nasal passages hydrated, temporarily relieve dry air discomfort, protect furniture, reduce static electricity and even keep plants healthy. This Honeywell humidifier is ideal for medium rooms, and is quick and easy to use and clean. With a 1 gallon tank, high and low settings, you can enjoy a warm mist for up to 24 hours. It also features a reset light that indicates when filling is required and comes with a medicine cup for use with liquid inhalants. Its ultra-quiet and has an essential oil cup for use with your favorite essential oils.
