Description

National Tree Company Pre-Lit Artificial Christmas Wreath, Green, Evergreen, White Lights, Decorated with Ball Ornaments, Red Sprigs, Christmas Collection, 24 Inches 24-Inch Christmas Red Mixed Wreath 65.33

Transform your home for the winter holidays with National Tree Company's Pre-Lit Artificial Christmas Wreath Decoration. Designed with an Evergreen branch base, this hanging wreath is 24 inches wide and decorated with ball ornaments and red sprigs. These beautifully ornate decorations complement the wreath's natural looking branches. Hundreds of crush-resistant polyethylene tips form full bodied branches to create a hanging wreath with remarkable realism. This fantastically festive wreath decoration is strung with white LED lights prior to packaging for a more convenient setup. The lights operate individually, so if the bulb lens has not been cracked or broken, the light set will continue to illuminate except for any individual bulbs that are not working. To power the lights, simply place three AA batteries into the battery pack and let the pre strung lights illuminate your home with the warmth and cheer of the holiday season. Hang this decorative wreath on any door, window or mantle to bring a Christmas ambience into any room or covered porch. Constructed with sturdy, high quality materials and hypo-allergenic, fire-resistant needles, this wreath is built to bring holiday cheer for years to come. This hanging decoration is suitable for both

indoor and covered outdoor use. At National Tree Company, we strive to create high quality Christmas decorations to help you transform your home so you can keep making every holiday moment magical.
